## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3, 8, 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 3, lines 6 and 10 citation of the limitation "provisional port bitmask" constitutes new matter as the specification does not disclose how a port bitmask is determined to be provisional.

Claim 8, lines 6 and 10 citation of the limitation "provisional port bitmask" constitutes new matter as the specification does not disclose how a port bitmask is determined to be provisional.

Claim 11, lines 6 and 12 citation of the limitation "provisional port bitmask" constitutes new matter as the specification does not disclose how a port bitmask is determined to be provisional.

***Allowable Subject Matter***

2. Claims 4-5, 9-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
